## PROFESSIONAL SUMMARY

Frontend Developer with **3+ years of experience** focused on building responsive, efficient user interfaces. Strong track record in improving user engagement and maintainability through clean React architecture, Tailwind CSS, and Framer Motion. Known for shipping reliable UI features and collaborating closely with product and backend teams.

## WORK EXPERIENCE

### Frontend Developer • IdleFarmer

Sep 2025 • Bassa, Plateau State

- Translated Figma designs into responsive components, maintaining design fidelity and proactively suggesting adjustments for smaller screens to optimize user experience.
- Addressed responsive edge cases across devices and browsers using Tailwind's utility system and thorough testing.
- Achieved faster perceived load times through skeleton loaders and motion-based feedback, reduced UI-related bug reports, and improved user engagement during onboarding.
- Conducted daily tasks including building/refining React components, styling with Tailwind, integrating backend APIs, and iterating based on team feedback.

### Frontend Developer • Use-Dora

May 2025 • <https://www.linkedin.com/company/use-dora4a/>

- Addressed responsive edge cases across devices and browsers using Tailwind's utility system and thorough testing.
- Conducted daily tasks including building/refining React components, styling with Tailwind, integrating backend APIs, and iterating based on team feedback.
- Collaborated closely with backend developers to align on API contracts, ensuring smooth integration by understanding data structures, edge cases, and loading states early in the development process.

## EDUCATION

### Mechanical Engineering • Nnamdi Azikiwe University

Nigeria • Aug 2024

- Throughout the final three years of my degree, I combined my studies with hands-on programming. Despite early challenges, I adapted quickly and built strong technical competence.

## SKILLS

**General Skills:** ReactJS, Tailwind CSS, Framer Motion, JavaScript, Responsive Design, API Integration, UI/UX Collaboration, State Management, Performance Optimization, Testing and Debugging

## PROJECTS

### Nabeto Engineering Limited

Oct 2025

- Comprehensive EPC solutions delivering world-class engineering, procurement, construction, operation, and maintenance services for industrial projects worldwide.

### IdleFarmer

Aug 2023

- Empowering farmers with a web-based idle farming simulator and giving them access to tractors, bulk inputs and farm support.

### Elnnema Care Initiatives

Nov 2024

- EI-Neema is an NGO platform that takes care of children especially girls to eradicate period poverty and also educate them on how to take care of their menstrual hygiene.

### My Mindspace

Mar 2024

- My Mind Space is a web application designed to help users manage their mental health and well-being through journaling, mood tracking, and mindfulness exercises.
